1 Who is the Real Wealth Manager?

The Real Wealth Manager is a professional who has earned the right to use the RWM™ certification after comprehensive training in the delivery of goal-based, client-centric wealth management solutions. The Real Wealth Manager leads a multi-stakeholder team, comprised of other financial services professionals and family members, in a holistic and long term approach to family wealth planning. The focus is on four elements of Real Wealth Management: the accumulation, growth, preservation and transition of sustainable wealth—that is, after taxes, inflation and fees.

2 The RWM™ Advantage: Certified Skillsets

Advisors authorized to use RWM™ behind their names have a deep and broad understanding of both the behavioral and financial skills required to manage family wealth over several generations. Using extensive skills in providing tax efficient Real Wealth Management services, clients are presented with an unparalleled opportunity to work with a primary advisor who has assembled a trusted team of specialists to help guide financial requirements throughout various family lifecycles.

In collaboration with the family, the RWM develops a strategy and follows a process to manage inter-generational wealth on an after-tax basis. This sets the standard for decision-making for investment, retirement, business, succession and estate planning. The team is then responsible for the stewardship of wealth from one generation to the next.

3 Meeting High Standards while Complementing Existing Credentials

The RWM™ is earned with the completion of an 11 module program. Ongoing use of the certification mark requires 30 hours of continuing professional development in each two year cycle. Best of all, the RWM™ complements other industry designations, requiring the graduate to be in good standing and practice with the highest standards of conduct.

In a nutshell:

Real Wealth Management is not simply about the money, the product or the plan — it's about creating and managing inter-advisory and inter-generational relationships with clients to make the best decisions in meeting the family's financial goals.

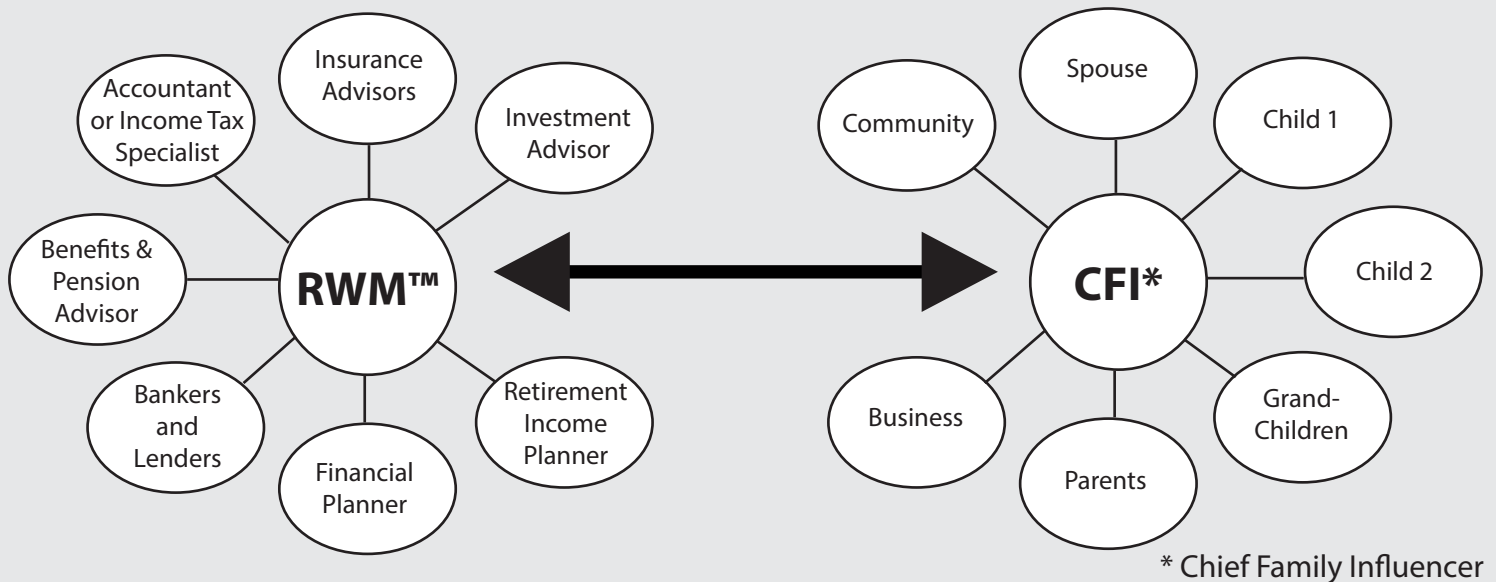

4 What's Involved?

With the training, tools and processes, a RWM™ is better positioned to consider a client's situation with a higher standard of care than a regular advisor. Over the long term, the RWM contributes not only as a knowledge specialist, but most importantly, as the primary advisor trained in the inter-advisory discipline of Real Wealth Management™. Specifically, the RWM possesses:

1. Deep Knowledge in a field of specialization suitable to their clients' needs:

- Investment Income Services
- Retirement Income Services
- Tax Planning Services
- Succession and Estate Planning Services

2. A Strategy and Process for Joint Decision-Making:

5 Knowledge Bureau Education: Synonymous with High Standards
