

**LOUIS-PHILLIPE BOUGIE**  
**XERO ACCOUNT MANAGER**

"I've always had a passion fixing problems. I can't just listen to your problem and not find a solution. I thought at first the path for me to do so was to grow both personally and professionally in the Big4 environment, learning everyday from great hard-working people. After some time, realizing I did not want to be a CPA and needed to help entrepreneurs and founders of SMEs grow their businesses. It's no surprise I started my own practice to do so by focusing on optimizing administrative processes and cloud accounting.

After falling in love with Xero as a client and using it for 2 years, I knew I could make an impact to a lot more companies by becoming part of an amazing company that focuses on giving accounting firms and cloud-service businesses the tools to help SME's grow.

And so here I am, the first Xero bilingual Account Manager in Quebec."
